

Europe

CELAB

Toward a Circular Economy for Labels

An industry initiative to build a Circular Economy for self-adhesive Label materials in Europe

Release liner and matrix are valuable industrial material that can be recycled or repurposed

CELAB-Europe is a collaboration of the whole self-adhesive label value chain to allow stakeholders to collect and recycle their used release liner and matrix material.

The CELAB-Europe collaborators

CELAB-Europe members are organizations from the supply chain of the self-adhesive labels

*FINAT acts as the legal entity of the initiative

Members

Vision, Target and Strategic Objectives

Vision

Create a self-adhesive label industry which is increasingly circular by offering solutions and providing education to enable liner and matrix recycling.

Target

For >75% of the used release liner and matrix material to follow a circular business model by 2025.

Strategic Objectives

Establish representative self-adhesive label value chain organization

Facilitate the development of cost-effective solutions

Utilize the value chain to build scale

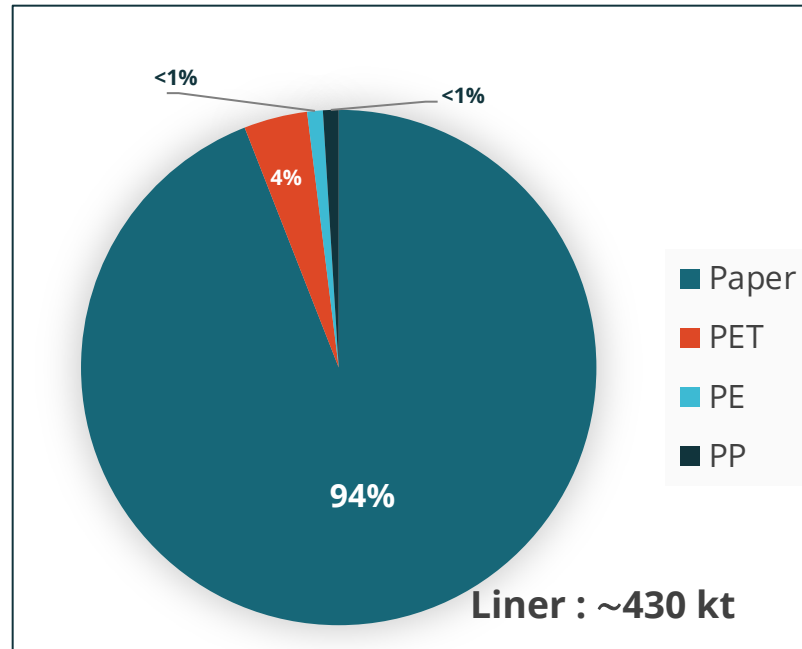

Scale of “The Opportunity”

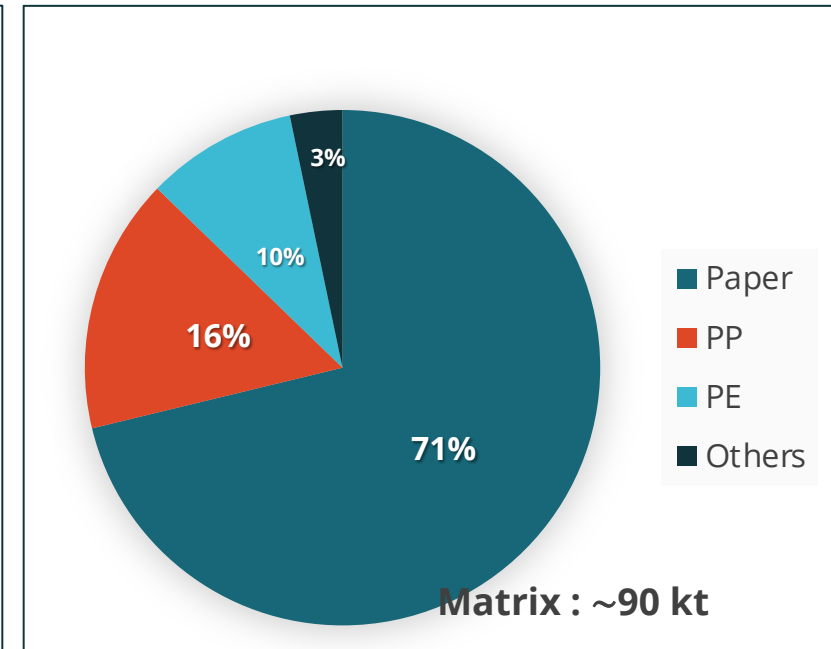

- Europe is responsible for one third of the quantity of the materials generated globally
- The major quantity of material is the paper liner (413 kt), followed by the paper matrix
- Filmic liner and plastic matrix represent relatively smaller fractions of the materials

Estimated based on AWA study – liner study WW

Deliverables per Workstream

Data mining

Geographical “heat mapping” of material usage to optimise logistics and to measure progress on the recycling target

Logistic

Connecting with the European transportation and recycling sector to develop and optimise collection systems for liner and matrix

Recycling solutions

Identifying, proving, and supporting the development of sustainable end markets for repurposed / recycled liner and matrix materials

Filmic liner and Matrix

Legal Framework

To monitor and advocate the development of regulations and guidelines that support the development of a sustainable business model for recycling in Europe

Communication

Raise awareness on the existence of CELAB Europe and its objectives and educate the value chain on the recyclability of the materials and existing recycling programs

The CELAB project exists also in other Regions

Already established

Becoming a CELAB-Europe member: Why and How?

Why?

- ✓ Join Europe's leading label industry initiative
- ✓ Be part of the solution to step up recycling in the label industry
- ✓ Participate in pilot tests for customised / optimised recycling solutions
- ✓ Demonstrate sustainability commitment to your customers and stakeholders

How?

- ✓ Annual contribution of € 5,000
- ✓ Sign the CELAB-Europe Governance Agreement
- ✓ Active participation in workstream(s) meetings and plenary meetings
- ✓ Being consulted by the WS
